姫路城

CASTELLO DI HIMEJI / IL CASTELLO AIRONE BIANCO

🌸 Il Castello di Himeji, che domina maestosamente la città giapponese di Himeji, è un gioiello architettonico che è stato inserito nell'elenco dei Patrimoni Umani dell'UNESCO. Costruito come fortezza nel 1333, alla fine di un'epoca di guerre civili, il castello ha subito diverse trasformazioni nel corso dei secoli. Nel 1600, fu avviato un'importante progetto di ricostruzione che portò all'attuale struttura, conservata nella sua integrità fino a oggi, inizialmente dai padroni feudali e successivamente dal governo giapponese. Labirinti di percorsi intricati, un tempo progettati per confondere e intrappolare i nemici, oggi tessono un viaggio intrigante per i visitatori. Attraverso guerre, terremoti, incendi e periodi di pace, il Castello Airone Bianco si erge come un sereno monumento alla cultura giapponese. Scopri gli intricati dettagli del maschio principale e la storia del castello mentre lo costruisci.

CHRIS MCVEIGH
LEGO® Senior Designer

UN TRIBUTO A UN PUNTO DI RIFERIMENTO VENERATO

🌸 "Nel 2023, ricorre il 30° anniversario dell'iscrizione del Castello di Himeji nell'elenco dei Patrimoni dell'Umanità dell'UNESCO, e la sua architettura e la sua storia sono ancora un mistero da decifrare. Abbiamo creato il maschio principale come punto focale naturale e abbiamo giocato con le proporzioni e la scala per metterlo in risalto. Chi ha visitato il castello, riconoscerà alcuni degli interni e, se non ci è mai stati, ci auguriamo che accenderà l'immaginazione e la curiosità nei confronti di questo straordinario edificio".

*Segui alcuni degli intricati percorsi,
rampe e scale che attraversano il castello.*

UN'ILLUSIONE OTTICA

Il metodo di copertura del castello di Himeji prevede l'utilizzo di tegole nere rettangolari e semicircolari a incastro. Diversi strati di argilla bianca rivestono le tegole, conferendo alla copertura un aspetto a rete ad alto contrasto, se osservata da vicino. Tuttavia, da lontano, la rete appare grigia. Le tegole di questo set sono di colore *grigio pietra scuro* per rispecchiare l'invecchiamento delle tegole.

Sbircia all'interno dopo la costruzione del modello.

Ogni torre è costruita in modo diverso, anche in altezza.

Gli angoli irregolari sono predominanti in tutto il castello e nelle mura.

Himeji Castle

Una rete di tegole nere e di argilla bianca fa apparire il tetto grigio da lontano.

Ogni strato o piano del maschio principale evoca la struttura reale del castello.

Decora i ciliegi con fiori rosa o foglie verdi.

Scegli tra una tessera con scrittura in giapponese e una con scrittura in inglese. Puoi sempre cambiarle, se lo desideri.

Nel 1993, il Castello di Himeji è stato inserito nell'elenco dei Patrimoni dell'Umanità dell'UNESCO, conferendo al monumento lo status di vero capolavoro e culmine dell'architettura dei castelli giapponesi in legno.

Una delle caratteristiche che rendono l'architettura del castello così interessante è che molte delle mura, delle torri e dei percorsi sono disposti ad angoli irregolari.
